

NAME: STREAM:

MID- TERM TWO ASSESMENT 2023

S.2 CHEMISTRY

Paper 1 (Theory)

Time: 1 ½ hours

INSTRUCTIONS: Attempt **ALL** questions in this paper

1.(a) All substances around us undergo physical or chemical change when subjected to certain conditions. What is meant by;

(i) A physical change [1score]

.....
.....

(ii) A chemical change [1score]

.....
.....

b) State whether the following changes are physical or chemical. [4 score]

i) Melting of butter

.....

(iii) Burning of magnesium ribbon

.....

(iv) Rusting of iron

.....

(v) Evaporation of water from a boiler

.....

c)State **four** characteristics of a chemical change. [4 score]

.....
.....
.....
.....
.....

2.(a) State the Kinetic theory of matter. [1 score]

.....
.....

(b) Using the kinetic theory of matter explain the following observations.

(i) Wet clothes hang outside under the sun get dry after sometime. [2 score]

.....

.....

.....

.....

(ii) When a glass of water is put in a freezer, the water turns to ice. [2 score]

.....

.....

.....

.....

3. (a) Define the following terms: [3 marks]

(i) Atomic number

.....

.....

(ii) Mass number

.....

.....

(iii) Valency

.....

.....

(b) An atom of an element is represented by ${}_{13}^{27}\text{Al}$.

i) What do the numbers 13 and 27 represent? [1 score]

13:

27:

ii) What is the number of electrons and neutrons in the atom? [1 score]

Electrons

Neutrons

iii) Write its electronic configuration and draw its electronic structure. [1score]

Electronic configuration:

4. Most of the substances in our homes contain acid or alkalis. For example; Lemon juice, Baking powder, vinegar, Banana ash peelings extract, Yoghurt and coffee among others.

(a) i) What do they all acidic or alkaline solutions have in common? [2 score]

Acidic:

.....

.....

Alkaline:

.....

.....

ii) Name one inorganic acid found in digestive system of man and state its function in the body. [2 score]

Name:

Function:

.....

.....

c) Acids can react with bases in a reaction called neutralization.

i) What are the products of a neutralization reaction? [1 score]

.....

ii) Write a **word** and **chemical** equation for the chemical reaction between the acid, H_2SO_4 and base, NaOH .

Word equation: [2 score]

.....

.....

.....

Chemical equation:

[2 score]

.....

.....

.....

iii) Suggest the pH/ pH range of the resultant solution formed by the reaction above.

[1 score]

.....

5. A salt is a substance formed when all or part of the hydrogen ions of the acid are replaced by a metal ion or Ammonium ion.

For any salt which you have prepared in the laboratory; mention what your aim was, the chemicals you used, steps followed and precautions you had to take.

i) Aim:

[1 score]

.....

ii) Chemicals used

[2 score]

.....

.....

iii) Steps you followed

[4 score]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

iv) Any precaution

[1 score]

.....

.....

END
